

# Projet SAUVÉR

Bromont, Nicolet, Plessisville, Temiscouata-sur-le-Lac, Riviere-du-Loup and Sainte-Julienne, QC

FCM's Green Municipal Fund investment: \$350,000

- Regional electric car-sharing system
- During business hours: the vehicles will be part of the municipal fleets; after hours: the vehicles will be part of the public car-sharing services.
- Approximately 56,000 people in all will benefit from the new service.

# Halifax Solar City

Halifax Regional Municipality, NS

FCM's Green Municipal Fund investment: \$5.5 million

- Financing through Property Tax supplement
- First jurisdiction in Canada successful with this model
- 381 conventional hot water tanks were replaced with solar hot water tanks, as a result of the project residents reduced fossil fuel use by 7-10%
- Installations expected to save homeowners more than \$5.5M combined over the lifespan of the system
